

P2P Packs snap up Silver Award!

SILVER
Geographical
Association

More exciting news about the P2P Challenge Packs ... the packs have been recognised for their significant contribution to school geography by being awarded Silver at the recent Geographical Association (GA) awards ceremony at their annual conference in Guildford. Due to the popularity of the

packs for use in Secondary Geography lessons, Citizenship lessons and more, CDEC have just printed further packs to meet demand. If you are interested in learning more about the packs through either in-house training or an open course in the Autumn term, please contact the CDEC team to sign up and find out more!
